Washington DC Tea Party 9/12/2009 My Journey

I went down to the Washington Tea Party on Amtrack because I felt a personal responsibility to do whatever I could to help get my country back on the right track both fiscally and philosophically. For the best part of the past year, politicians have been expanding the government, and destroying incentive in our society. We have been weakened militarily, diplomatically, and financially, culminating recently in the attempt to have the government take over the health care industry. The immediate purpose of my trip was to land my presence and make a stand showing how opposed I am to the so-called public option of a single payer government entity, and all its Trojan Horse look-alikes which would eventually destroy the health insurance industry, and make the government the sole decider of how to ration health care in our country.

We never knew how many of us were there. The powers that be denied us permission to use the Mall, so it was difficult to compare the size of the crowd to that present for the recent inauguration. There were other groups who were given permits, though. Many marchers clogged Constitution Avenue and Pennsylvania Avenue almost to the White House.

Second Amendment March needs your help!

We have less than eight months until our D.C. event, and there is much to accomplish before then.

Many hands make light work, so we are forming committees to take on specific tasks. The descriptions are provided below.

If you are willing and able to serve on one of these committees, please send an email to Terri.Stocke@secondamendmentmarch.com with the following information:

- Full Name
- Email address
- Phone number
- Committee you are volunteering for
- Information on your background / experience that would make you a good fit for this committee

We regret that these are all unpaid, volunteer positions (as is the case with all of our staff, coordinators and directors). While we cannot offer you compensation, we can offer you the opportunity to make history!

"If you will not fight for the right when you can easily win without bloodshed, if you will not fight when your victory will be sure and not so costly, you may come to the moment when you will have to fight with all the odds against you and only a precarious chance for survival. There may be a worse case. You may have to fight when there is no chance of victory, because it is better to perish than to live as slaves." ~ Winston Churchill
